chances are we can lease it!*

Special 13 Month Financing

Looking for a financing option that won't tie you down? Look no further than North Star Leasing Company's special 13 month program as offered through Grease Guardian.

Here's how it works

Take the equipment cost and divide by 12.
Make two advance payments followed by 11 monthly payments, and you're done!

Ex. \$3,000 ÷ 12 = 13 payments of \$250

North Star Leasing also offers many other financing programs with low payments from 24 to 60 months, all with a \$1.00 purchase option at the end of the term.

Why lease?

Many companies use lease-to-own financing instead of using up valuable cash or limited credit lines. Finance your next Grease Guardian purchase for up to 60 months, allowing affordable monthly payments instead of a big cash purchase. For early payoff options, simply call North Star Leasing and request your payoff with no penalty. What could be simpler?
